## Management Discussion and Analysis

The following Management Discussion and Analysis (MD&A) provides insight into the Saskatchewan Transportation Company's (STC) operations in the second quarter of 2013. From a management perspective, it highlights the primary factors that impacted our operations and the financial results of the Company over the past six months.

This MD&A compares the operational outcomes of the second quarter of 2013 to the corresponding quarter in the previous year (second quarter of 2012) and to the anticipated financial position of the Company over the full year. It also discusses any emerging issues that will have an impact on the Company's fiscal position.

### Passenger Services:

In the first half of 2013, STC coaches traveled approximately 1,515,000 miles, serving 284 Saskatchewan communities. Due to financial and operating pressures caused by Greyhound service reductions in Manitoba, STC reduced service frequency and adjusted endpoints on certain routes in late 2012. In May 2013, the Highway Traffic Board approved STC's request to discontinue three under-utilized routes. One route was approved for elimination in May with the other two routes approved for discontinuance at the end of 2013. The elimination of the one route in May 2013 has reduced the communities served from 287 in quarter one to 284 at the end of the second quarter.

Revenues from passenger operations in this quarter were \$1,808,000 down from \$1,908,000 in revenues reported in the second quarter of 2012. Year to date passenger revenues were \$3,755,000, compared to \$3,584,000 for the same period in 2012.

Expenses associated with operating passenger services were \$4,187,000 up from the 2012 figure of \$3,917,000. Year to date passenger operating expenses were \$8,132,000, up from the 2012 total for the same period of \$7,790,000.

Operating losses for passenger services in the quarter were \$2,379,000, compared to a loss of \$2,009,000 in the second quarter of 2012. Year to date losses were \$4,377,000, compared to a loss of \$4,206,000 for the same period in 2012.

Total ridership for the first half of 2013 was 134,972, compared to 133,108 in the same period of 2012, an increase of approximately 1.4%.

STC last implemented a 4.56% passenger fare increase effective January 3, 2013.

### Express Services:

Through its network of 192 agents in the province and interconnecting arrangements with other carriers, STC hauls freight throughout the province and connects to destinations across North America.

In the second quarter of 2013, revenues from express operations were \$1,980,000, slightly up from the revenues of \$1,972,000 reported in the second quarter of 2012. Year to date express revenues were \$3,551,000 as compared to \$3,596,000 for the same period in 2012.

Expenses associated with operating express services in the second quarter of 2013 were \$1,492,000, up from the 2012 second quarter figure of \$1,441,000. Year to date express operating expenses were \$2,892,000, as compared to \$2,888,000 for the same period in 2012.

Profits realized for express operations in the second quarter were \$488,000, compared to a profit of \$531,000 in the second quarter of 2012. Year to date profits were \$659,000 compared to \$708,000 for the same period of 2012.

STC last implemented an express rate increase effective February 1, 2013.

## **Maintenance Services:**

STC operates two Maintenance Facilities, one in Saskatoon for major bus servicing, and one in Regina for routine servicing and maintenance.

In the second quarter of 2013, expenses associated with maintaining the Company's fleet (included in passenger and express services above) were \$1,048,000 an increase compared to \$911,000 in the second quarter of 2012. Year to date maintenance expenses for the Company's fleet were \$1,964,000 as compared to \$1,831,000 for the same period of 2012.

The Company also uses these facilities to perform maintenance work for other transportation companies. The revenues derived from this service in the second quarter of 2013 were \$75,000 compared to \$81,000 in the second quarter of 2012. Year to date revenues were \$169,000 compared to \$194,000 for that same period in 2012. The decrease in revenues year over year is primarily due to a re-allocation of mechanic hours to STC's own fleet repairs.

Expenses associated with such work were \$47,000 in the second quarter of 2013 compared to \$42,000 in the second quarter of 2012. Year to date expenses for third party maintenance work were \$105,000 compared to \$105,000 for the same period of 2012.

## **Financial Summary:**

Overall, STC's revenues for the second quarter of 2013 amounted to \$4,082,000, compared to \$4,085,000 in the second quarter of 2012. Year to date revenues were \$7,822,000 as compared to \$7,611,000 for the same period of 2012.

Expenses for the second quarter were \$7,602,000, compared to \$7,028,000 for 2012. Year to date expenses were \$14,656,000 as compared to \$13,953,000 for the same period of 2012.

The Company's loss before grants for the quarter was \$3,520,000, compared to \$2,943,000 in the second quarter of 2012. Year to date losses were \$6,834,000 as compared to \$6,342,000 for the same period of 2012.

STC has been approved for an operating grant of \$10.0 million from its holding company, the Crown Investments Corporation (CIC) of Saskatchewan. Current projections for the year, based on the second quarter, indicate that the Company will require the full amount of grant funding.

In this year's first two quarters, STC drew down \$5.2 million of the operating grant funds available from CIC. STC had no outstanding loans or indebtedness at the end of the quarter.

At the end of this quarter, the Province of Saskatchewan's equity in STC was \$6,780,000 compared to \$7,939,000 in the second quarter of 2012.

**Saskatchewan Transportation Company  
Notes to Condensed Financial Statements  
For the period-ended June 30, 2013**

**1. Status of Saskatchewan Transportation Company**

The Saskatchewan Transportation Company [STC; the Company] was originally established in 1946 by Order in Council #168 to act as a common carrier providing passenger service transportation, parcel express and freight services. STC's powers, duties and conditions were affirmed in 1993 by Order in Council #5. STC is continued under *The Crown Corporations Act, 1993*. STC is a corporation domiciled in Canada. The address of the Company's registered office and principal place of business is 1717 Saskatchewan Drive, Regina, SK, S4P 2E2.

The financial results of STC are included in the consolidated financial statements of Crown Investments Corporation of Saskatchewan [CIC].

The results included in these condensed interim financial statements should not be taken as indicative of the performance to be expected for a full year due to the seasonal nature of corporate operations.

**2. Basis of preparation**

**a. Statement of compliance**

These unaudited condensed interim financial statements have been prepared in accordance with International Accounting Standard (IAS) 34 – *Interim Financial Reporting*. These interim results do not include all the information required for full annual financial statements and should be read in conjunction with STC's audited annual financial statements for the year-ended December 31, 2012.

The condensed interim financial statements were authorized for issue by STC's Board of Directors on August 21, 2013.

**b. Basis of measurement**

The financial statements have been prepared on the historical cost basis.

**c. Functional and presentation currency**

These financial statements are presented in Canadian Dollars, which is the Company's functional currency.

**d. Use of estimates and judgments**

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the application of accounting policies and reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

Accounts receivable are stated after evaluation as to their collectability and an appropriate allowance for doubtful accounts is provided where considered necessary. Provisions are made for slow moving and obsolete inventory. Depreciation is based on the estimated useful lives of property and equipment. Tangible assets are reviewed for impairment annually using estimates of recoverable amounts to determine if there is an impairment loss. The accrual for compensated absences is based on historical usage.

**3. Significant accounting policies**

The accounting policies and methods of computation used in the preparation of these condensed interim financial statements are consistent with those applied in STC's audited annual financial statements for the year-ended December 31, 2012.
